Full Stack Developer (React/Nest.js) specializing in AI and 3D interfaces with 2 years of experience. Expert in architecting scalable APIs, managing automated deployments boosting performance by 35%, and delivering user-centric UX that reduced support requests by 25%.

SKILLS

HTML, CSS, SCSS, Tailwind, Shadcn, JavaScript, TypeScript, React, React Native, Next.js, Redux Toolkit, Zustand, Node.js, Express.js, Nest.js, SQL, NoSQL, PostgreSQL, MongoDB, Redis, Git, GitHub, GitLab, Axios, REST API, GraphQL, tRPC Vite, Stripe, Figma, Three.js, R3F, Postman, Prisma ORM, Jest, Playwright, Authentication (JWT), Docker, Deployment (Vercel / AWS / Render), CI/CD.

WORK EXPERIENCE

FullStack developer at KodiX

01.2025 - Present

- AI integration: Implemented OpenAI API with real-time data access and custom prompts to deliver accurate, context-aware responses and improve user satisfaction.
- 3D interactivity & customization: Built real-time 3D product customization with React Three Fiber (R3F), enabling instant visual feedback and increasing user engagement and retention.
- Payment integration: connected Stripe for online payments, which automated processes and simplified user interaction with the platform.
- Migration of the project to a modern stack: migrated the website from HTML/CSS to Next.js and Tailwind, which reduced page load times by ~35%, improved SEO, and enabled scalability.
- Backend & API: Consolidated data-fetching layers by integrating optimized REST APIs and refactoring React component rendering paths, eliminating delays and redundant re-renders.
- Cloud & Deployment: Optimized CI/CD pipelines that reduced deployment time by 23%, managing FE/BE environments across Cloud/VPS. with regular automated updates.

Frontnd developer at Training Club

12.2024 - 02.2025

- UX Support: Cut support requests by 25% by implementing clear error messages and hints.
- Forms & Navigation: Improved usability and flow, making user actions faster and easier.
- UI Modernization: Updated and optimized the interface, effectively reducing the bounce rate.
- Responsive Design: Enhanced adaptability, leading to increased mobile user engagement.

EDUCATION

Zolochiv Vocational College of Lviv Polytechnic National University
